Office Memorandum • UNITED STATES GOVERNMENT

TO : **DDI**

DATE: **9 January 1959**

FROM : **RWK**

SUBJECT: **Emphasis on OISP in Draper Committee Briefing**

Accepting the premise that the internal subversion is one of the key threats with which MAP designed to deal, then OISP is in many cases better way to deal with it than building up big local forces. DCI gave pat on back to OISP in briefing Draperites and I urge that you (or Des Fitzgerald) also say a few words on it (see my briefing note for DCI attached). I understand Draper group very interested in internal security programs.
